Since the creation of CADDIE in 1928, we have done our utmost in terms of creativity, ingenuity and know-how to design high quality environmentally friendly products.

Our worldwide presence and values unite over 1000 people in our factories. They are located in France, Portugal and China, to provide expertise and solutions to all handling and storage requirements.

CADDIE creates innovative products for the following industries: retail, manufacturing, logistics, hospitality, medical, communities and airport.

Choosing Caddie is choosing innovation.

We continually invest in new technologies and new methods of production.

Our research and development efforts are focused on new materials and design.

Choosing Caddie is choosing the performance.

Our solutions are based on two fundamental points:
- Increasing customer’s profitability by offering solutions to bring more efficiency and better customer loyalty.
- Manufacturing of trolleys with quality, strength, comfort, safety, manoeuvrability to optimize their use.

The trolley is the essence of our brand... with Caddie you are sure of your choice.

Discover our AIRPORT range, and feel free to call our advisors for more information.
STARLIGHT

ORIGINAL IDENTITY AND ERGONOMICS

Starlight, vector of the identity of the airport, provides a fluid and dynamic design. This unique personality will differentiate your site from the competition. It is designed for the comfort and the enjoyment of passengers (aluminium frame). The excellent manoeuvrability makes it easier to turn and reduces the effort in steering. Easy use for maximum pleasure.

Starlight also offers:
- A frame in aluminium which is more environmentally friendly,
- The backward position of the rear wheels is perfect for stability and freedom of the legs,
- A resistant, comfortable and protected front caster.

3 WHEELS AND BRAKE TROLLEY

- T4 anodized aluminium 6061 trolley
- Nestable trolley with brakes
- Stainless steel upper basket
- 3 wheels: ø 180 mm rubber tyre with ball bearings
- Customizable handle, round tube or ergonomic Ovaly
- Coloured plastic bumpers
- Disengageable braking system
- Nesting: 300 mm
- Weight: 20 Kg
- Maximum load capacity: 200 Kg
- Large advertising plate: 320x522 mm
- Advertising panel at the front of the basket: 152x502 mm
- Advertising panel at the rear of the basket: 101x502 mm

Option:
Coin lock
SUNLIGHT

ELEGANCE AND ERGONOMICS
Sunlight benefits of a contemporary and elegant design. Sunlight can be easily integrated into all types of architectures. It is also designed for comfort and enjoyment of passengers (aluminium frame). A grid is available for better retention of smaller size pieces of luggage.

Sunlight also offers:
- A frame in aluminium which is more environmentally friendly,
- A resistant, comfortable and protected front caster.

LUGGAGE CART WITH 3 CASTERS
OF WHICH 2 BRAKED

> T4 anodized aluminium 6061 trolley
> Nestable trolley with brakes
> Stainless steel upper basket
> 3 wheels: ø 180 mm rubber tyre with ball bearings
> Customizable handle, round tube or ergonomic Ovaly
> Coloured plastic bumpers
> Disengageable braking system
> Customizable Handle, round tube or ergonomic Ovaly
> Nesting: 275 mm
> 10 nested carts: 3.65 m
> Load capacity: 200 kg
> Weight: 20 kg
> Large advertising plate: 352x530 mm
> Advertising panel at the front of the basket: 152x502 mm
> Advertising panel at the rear of the basket: 101x502 mm

Options:
Stainless steel rear grid for a better luggage retention chrome
Coin lock

> Four wheels version also available (2 front rubber wheels ø 125 mm)
GALAXY 51 & GALAXY 52

MULTIPURPOSE LUGGAGE TROLLEY
A range of sturdy trolleys complete with easy to use braking system. The Galaxy range accommodates all types of use in airports or railways stations. Easily nestable and easy to handle, the Galaxy trolleys greatly facilitate the work of the staff for cart collection.

GALAXY 51

> Electrolytic galvanized tubes and wires, water-soluble varnish coating
> 3 rubber wheels ø 200 mm
> Nesting: 300 mm
> 10 nested carts: 3.65 m
> Load capacity: 250 kg
> Weight: 23 kg
> Advertising panel: 470 x 290 mm

Options:
Coin lock
Retaining bar and specific wheels for use on moving walkways

GALAXY 52

> Electrolytic galvanized tubes and wires, water-soluble varnish coating
> 2 fixed castors ø 200 mm and 2 swivel ø 125 mm, rubber
> Nesting: 340 mm
> 10 nested carts: 4 m
> Load capacity: 250 kg
> Weight: 25 kg
> Advertising panel: 470 x 230 mm

Options:
Coin lock
Retaining bar and specific wheels for use on moving walkways

Galaxy also offers:
- Wraparound front bumper,
- High capacity upper basket,
- Large advertising panel.
The EQUINOX range fully matches the requirements of passengers and airport staff in the toughest conditions. Stable and manoeuvrable, they are adapted to the transport of all types of luggage.

Other highlights of the Equinox range:

Coin lock
Frame colour coating
Baby shell colours: grey, red, green or blue
Ovaly Handle / Clip’On

SHOPP’AIR

SHOPP’AIR + child seat + Ovaly Handle

SHOPP’AIR WITH BABY SHELL

> Nesting: 410 mm
> Swivel rubber wheels with brakes, ø 125 mm at the rear
> Swivel rubber wheels, ø 100 mm at the front

Option :
Baby shell colours: grey, red, green or blue
CART MANAGER XD+

SAFE AND EFFECTIVE MANAGEMENT OF TROLLEY COLLECTION

The trolleys pusher Cart Manager XD+ is a excellent solution to improve productivity. This allows an easy, efficient and safe collection of trolleys.

The benefit is a greater number of trolleys available and an environment free of abandoned trolleys.

> REDUCED TIME COLLECTION
Large amounts of trolleys can be moved safely with the Cart Manager XD+.

> COLLECTION WITHOUT EFFORT OF HEAVY OR LARGE TROLLEYS
Using the XD+ Cart Manager you can easily move over 30 trolleys at one time or 700kg.

> LONG BATTERY LIFE
The battery can operate up to 10 hours continuously on a single charge.

> ROBUST CONSTRUCTION
The robust construction and suitable tires used to move carts in the worst weathers such as rain or snow.

> THE SLOPES ARE NOT A PROBLEM ANYMORE
The XD+ Cart Manager is ideal for sites with irregular surfaces or on several levels.

> INVENTORY OF TROLLEYS IS OPTIMIZED
Use Cart Manager XD+ allows a better rotation of the trolleys fleet and thus a smaller number of trolleys is needed.

> EMERGENCY STOP
The emergency stop button on the remote machine and on the remote control stops the machine immediately, to ensure safety in case of an unexpected obstacle.

> SECURITY AND BRAKING LIGHT AND HORN
The maximum visibility and accidents in the parking lot are minimized.

> EASE OF USE
The touch of one button to reduce the cost of labour.

> REMOTE CONTROL
Buttons and explicit practices and the collection can be made by any employee.
CARTCONTROL

Keep your fleet thanks to the CADDIE trolleys retention system.
You are regularly facing losses or thefts of trolleys, damaging your image and your profitability. The trolley retention system is an effective and affordable way to keep your trolley fleet where it belongs.

Outside or inside, wherever you want to control your fleet of trolleys, the invisible barriers of CartControl help maintaining your investment.

PERIMETER ANTENNA
The cable, installed in the surface of the car park, with double insulation and waterproofing, defines at which precise locations the trolleys are braked/released.
The digital signal transmitted can be adjusted, and is designed to be received by all trolleys within a defined distance around the perimeter antenna.

BRAKING AREA
RELEASE AREA

SMARTWHEEL
When a trolley reaches the authorised limit, the auto-blocking caster receives the blocking signal and gradually brakes the trolley.

> CARTKEY
Control and comfort of use.
These remote control units can block or release the caster at a distance between 50 cm and 1 m from the casters.

> WIRELESS SOLUTIONS
Wireless solutions are ideal for areas such as underground car parks, doors, lifts, escalators... and areas where it was previously impossible to install a trolley security system.
The signal has a range of 12 metres and no physical floor installation is necessary.
CADDIE AIR SYSTEM

Strong points of the system:
- less effort in collecting carts,
- reduced possibility of damage caused by carts left on the car parks,
- optimized storage panel and well maintained cart fleet,
- centralized cart monitoring by RFID (instantaneous management of the available luggage carts,
- choice of payment by card, bank notes or coins,
- short return on investment.

CADDIE AIR SYSTEM

MANAGING YOUR CART FLEET

- A new way of managing your cart trolley fleet
- Stainless steel or polyester coated steel box
- Choice of various colours
- Intranet system for managing the cart fleet and its maintenance
- RFID technology of identity the carts
- Configuration according to the currency used
- Battery backup in case of power breakdown
- Air conditioned for warmer climates
- Payment by bank notes and/or credit cards
- Multi-row with additional tower
POSTS WITH RETRACTABLE BELT SYSTEMS

Extremely convenient, these posts include a retractable 2 m belt. Smooth tube of 70 mm ø and 1015 mm height. Ø 355 mm base, fitted with rubber floor protection. Non-marking. Weight: 13 kg.

2 finishes available: chrome or black. Customization of the belt available.

INFORMATION PANEL HOLDERS

Caddie information panels are available in useful A3 and A4 formats. 4-way post connection, allowing each post to simultaneously receive up to 4 ropes from any direction. The frames are extremely easy to use. They can be mounted either horizontally or vertically onto the uprights.

- Available in A3 and A4 formats.
- They can be mounted either horizontally or vertically onto the uprights.
