

CONVENIENCE

The **Caddie.Speedy** trolley is a solution for an increased mobility in stores, and represents an alternative to traditional shopping baskets as it extends the shopping comfort even to the parking.

Light and **compact**, it fits closely the customers' paths, which makes it the perfect shopping companion.

DESIGN

Designed to fit the latest trends of city stores, or as a complementary trolley, **Caddie.Speedy** is a real **differentiation** tool that enables the retailer to win customers' loyalty.

For the retailer and its customers, it is a way to combine the elegance of a contemporary design and hybrid advantages.

ERGONOMICS

Its features ease loading and unloading phases and thus, make it essential to customers' shopping **comfort**.

In the store's sections, during the checkout and in the car park, the trolley fits all customer profiles.

"The new Caddie.Speedy is so convenient, going shopping is much more pleasant !"
Isabelle P. - FRANCE

DESIGN

A top-of-the-range and avant-gardist model.

- Harmonious association of metal and plastic materials : continuity between historical mesh and modern lines.
- A mix of color giving it a unique and differentiating identity.
- An original-curved base designed for a life-sized companion.

Protection of the trolley and its environment.

- Front side including a shock absorber bumper function.

ERGONOMICS

An eased organisation of shopping and less efforts during loading and unloading.

- Raised basket bottom.
- Uniform loading threshold for handy access all around the trolley.

PROMOTION

Reinforces retailer's identity, conveys its values and promotes its image.

- Innovative and top-of-the-range design.
- Side promotional space with customized sticker (80 x 65 mm).
